7. Next, complete your sign up.

8. Facebook will ask if you would like to receive notifications on your phone from when you receive a like, comment, share, event invite, or friend request. Click "Allow" if you would like to receive notifications or "Don't Allow" if you would not.

9. If you would like your phone to save your password to make logins simpler in the future, click "Save Password." If not, click "Don't Allow."

10. Next, you will be prompted to upload a profile photo. Your picture will make the first impression to your friends, family, employers, and strangers on Facebook. Create a profile that presents you well, avoiding any photos where your face is not visible, photos with unfriendly facial expressions, or photos involving illegal activities. To upload a profile picture, click "Choose a Photo" and select a picture you have taken previously from your camera roll. If you do not have any photos and would like to take a new one, select "Take a Photo" and you can use your phone camera to take a photo to upload.

11. If you would like Facebook to have your location to best connect you to people and places you may know or want to know, click "OK." Then, click "Allow While Using App." If you would not like Facebook to have your location, select "Don't Allow."

12. You can find friends to add on Facebook. Click the "Get Started" button. If you would like to allow Facebook to access your contacts to add your friends and family on Facebook more easily, click "OK" (in red boxes below). If not, click "Not Now" and continue to Step 14.

13. Once Facebook has synced your contacts, it will identify which of your friends and family members already have Facebook accounts and allow you to add them. Click the "Add Friend" button next to anyone you wish to add.

14. Next, you will have to confirm the phone number or email you signed up with. You should have received a text or email with the confirmation code. Enter it in the box titled "Enter Confirmation Code". If you did not receive a code, select "Send Code Again," "Change Phone Number," or "Confirm by Email."

15. You have finished the initial setup of your account, but you can add additional information if you wish. To do so, select the three-lined button in the bottom right corner (in red box below). Then, click on your name right under the "Menu" button.

16. To complete your profile with more information about yourself and allow people to get to know you more, you can:

- a. Enter additional information
- b. Create an introduction to yourself
- c. Upload more photos
- d. Share a Facebook status
- e. View your timeline
- f. Change privacy settings
- g. Message friends and family

To add this additional information, click "Get Started". Note: Throughout this section, if you do not feel comfortable sharing some information, you can always click the "Skip" option.

Featured Photos

To add more photos, click the "Add More" button and upload more photos from your camera roll.

Bio

To add a short bio, click in the area in the box below. You may tell people more about yourself, your favorite quote, what makes you happy, or anything else you feel represents you.

Hobbies

To add your hobbies, you can select some of the popular hobbies in the bubbles. If you would like to add more that you don't see, click the "Search for others" button.

Music

To share your favorite music with your friends, search your favorite songs in the search bar.

You can go back at any time to edit the information on your profile. To do so, click the "Edit Public Details" button.

Share a Facebook Status

1. You can update your Facebook status by clicking the home button at the bottom left hand corner of the screen (in red box below). Then, enter your status update in the text box titled “What's on your mind?”.

View your Timeline

1. To stay up to date on your friends' and family's status updates and shares, you can check out your timeline. To view, click the home button at any time.

2. You can then like, comment, and share others' statuses. Under every status, you will see three options, shown below.

Change Profile Settings

1. To change your profile settings, click the three-lined button in the bottom right-hand corner of your screen.

2. Then, scroll down to "Settings." You will then be in your account settings. There are many possibilities here.

- a. To change your security or login information
- b. To create a private account, click the “Privacy” button. From here, you can alter who can find your posts and who can contact you.
- c. To customize who can post on your timeline and who can tag you in posts, click the “Timeline and tagging” tab.
- d. You may also change story, location, blocking, language, face recognition, notification, mobile, and public post settings by clicking the corresponding buttons on the screen.

Message Friends and Family

1. You can also privately message your friends and family. To do this, you will need to download an additional app called “Messenger.” To do this, go to the app store, type in “Messenger,” and select the button to the right of it to download it (NOTE: This image says “open” because Messenger was already downloaded. This may look different on your screen).

- Once you click on the app and login with your Facebook login information, you can start a chat with your friends and family. Type in the name of the friend you would like to message and type a message in the box to send. For more detailed information on using Facebook Messenger, please see the Facebook Messenger Instructional Guide.
